

How do I flag an issue with a record?

Users must be logged in to the Atlas before the 'flag an issue' function can be used.

If there is a potential problem with a record, users can click the 'flag an issue' box on the left of the occurrence record page.

Occurrence record: LC00021500013JD0

Human observation of *Sus scrofa* | Wild Boar recorded on 2016-01-04

Flag an issue

You are logged in as Katie Oliver (k.oliver@nbn.org.uk).

Issue type: Geospatial issue

Comment: Please add a comment here...

Submit Cancel

Once the issue has been submitted, the Atlas administrators will be notified. The record provider will then be contacted in order to rectify any potential problems.

The user that flagged the issue will be kept informed of the outcome.
